

OUR SCHOOL

Our school aims to provide students with extensive academic and social opportunities, supporting them in maximizing their individual potential. Classes are held between 08:40 and 15:55, and a modern heating system (central heating) ensures a comfortable learning environment. Additionally, internet access is provided via ADSL, allowing students to benefit from technological resources.

English is prioritized as the primary foreign language, with the goal of preparing students for a globalized world. While no private transportation service is available, the school is easily accessible via public transportation.

Academic Achievements

Data from the past three years highlights our school's consistent success in exams and student placements:

- *2021*: A 43.06% success rate resulted in placements at 31 faculties and 10 vocational schools.
- *2022*: A 27.70% success rate led to placements at 37 faculties and 4 vocational schools.
- *2023*: A 46.46% success rate ensured placements at 38 faculties and 8 vocational schools.

Our minimum and maximum scores have shown a steady increase over the years, reflecting the competitive and high-achieving environment our students thrive in.

Sports and Scientific Activities

In the field of sports, our school's girls' volleyball team has achieved significant success, including regional championships and provincial titles over the years. In 2016, the team reached the Turkish semifinals and won first place among public schools.

Our strong participation in scientific activities greatly enhances students' academic and analytical skills. Events such as the TÜBİTAK Olympiads, URFADU, and CodeWeek have seen increased student representation and achievements each year.

Projects and International Activities

Our school actively participates in prestigious competitions such as TÜBİTAK, TEKNOFEST, and MEB Robot. Additionally, through Erasmus and e-Twinning projects, we provide students with opportunities to gain international experiences.

- *2023/2024 Project Data*:
- TÜBİTAK: 31 projects, 45 students
- TEKNOFEST: 2 projects, 11 students
- Erasmus: 1 project, 30 students

Conclusion

With a capacity of 90 students, our school offers a rich academic and social environment, cultivating individuals who achieve national and international success. During the 2023/2024 academic year, 36 national and international projects were completed, with active involvement from 71 students.

Our school continues to nurture future leaders by providing high-quality education and a wide range of opportunities for success.
