

**Vision:**

The vision of our school is to educate individuals who surpass the level of contemporary civilization.

**Mission:**

The mission of our school is to nurture students who are committed to Atatürk's principles and reforms and who uphold national values. Additionally, we aim to develop individuals who can think creatively and innovatively, solve problems and make decisions through critical thinking. It is important for our students to utilize learning strategies, possess effective communication skills, and work collaboratively in teams. We also ensure that they are literate in information and communication technologies, have a sense of local and global citizenship, and acquire life and career skills. Moreover, we aim to equip them with cultural awareness and competencies, fostering a sense of personal and social responsibility.

**Achievements:**

1. On December 27, 2021, Ayvalık Anatolian High School signed an "Educational Cooperation Protocol" with Sabancı University. Under this protocol, twenty social, scientific, and cultural events are organized annually.
2. Within the scope of the "In Pursuit of Success" project in collaboration with the Defne-Muhtar Kent Education Foundation, three of our students were awarded scholarships to Michigan State University and Arizona State University.
3. At the 14th International M.E.B. Robotics Competition, held in Şanlıurfa, our robot "KRATOS" was awarded second place in Turkey in the Advanced Level Line-Following Robot category.
4. Thanks to the eTwinning projects carried out at our school, we received the European Quality Label Award and were granted the title of "eTwinning School."
5. As part of the Erasmus project "The Green Way - Together For One Goal!" accepted by the German National Agency, visits were conducted between September 2023 and June 2024.
6. The "AYALMUN24" Model United Nations Simulation was held on May 10-12, 2024, hosting 320 participants. This event marked a first for Ayvalık and the Gulf region, contributing to the branding of academic education in Ayvalık.
7. The Erasmus project "Cultural Horizons - Bridges between Türkiye and Germany" was accepted by the German National Agency. Visits for this project were carried out between October 2024 and June 2025.
